Here’s how Mobil SHC can help make your coal pulverizers work more efficiently — and your operation more productive.

- **Industries:**
  - Power Generation
  - Cement

- **Key Applications:**
  - **Ball pulverizers** (main drive, inching drive, trunnion bearings)
  - **Roll pulverizers** (drive gearbox, mill roller bearings)
  - Feeders
  - Bearings
  - Motors

- **Products:**
  - Mobil SHC 600 Series
  - Mobil SHC Gear Series
  - Mobilith SHC Series
  - Mobil Polyrex EM

- **Potential Mobil SHC Benefits**: 
  - Improved wear protection / extended gear life;
  - lower maintenance costs
  - Reduced energy consumption* / increased productivity
  - Extended drain intervals / reduced waste oil

- **Key Equipment Builder Preferential Endorsements:**
  Please refer to the ExxonMobil Equipment Builders (EMEBs) guide for builder endorsements.

- **Proof of Performance:**
  Customers using Mobil SHC lubricants and greases have reduced their annual operating costs considerably, increasing their productivity.

For examples of how Mobil SHC has helped customers like you, contact your ExxonMobil representative.

---

*mobilindustrial.com*

* Reduced energy consumption relates solely to the fluid performance when compared with ExxonMobil’s standard fluids.

The technology used allows up to 8% efficiency gain depending on equipment design and operating conditions. The energy efficiency claim for this product is based on test results conducted in accordance with all applicable industry standards and protocols.

**Note:** Schematic and product information are intended as a general guide only. Products listed are typically the product series names. Please refer to equipment builders manual for final lubrication recommendations or consult your Mobil Industrial Lubricants team for additional products. NOT TO SCALE.
